

Achieving Balance

Land, Water, Food And Fiber In California

The California Department of Food and Agriculture announces
the August meeting of the
California State Board of Food and Agriculture
Wednesday, August 31, 2005
9:00am to 2:30pm

at the California Department of Food and Agriculture Headquarters
1220 N Street, Sacramento, First Floor Auditorium

SPEAKERS:

Dr. Robert Wilkinson is director of the Water Policy Program at the Bren School of Environmental Science and Management at UC Santa Barbara. His work focuses on water policy, climate change and environmental policy issues. He serves on the public advisory committee for California's State Water Plan and also advises various agencies. In addition, he served as coordinator for the climate impacts assessment of the California Region for the US Global Change Research Program and the White House Office of Science and Technology Policy.

Dr. Jay Lehr received the nation's first Ph.D. in ground water hydrology from the University of Arizona in 1962, following a degree in geological engineering from Princeton. He served for 25 years as head of the Association of Ground Water Scientists and Engineers. From 1968 through 1982 he assisted the federal government in establishing a safety net of environmental regulations, testifying before congressional committees on more than three-dozen occasions. Dr. Lehr is currently science director with the Heartland Institute and president of Environmental Education Enterprises.

Also participating: Martha Davis, Inland Empire Utilities Agency; Tom Graff, Environmental Defense West Coast; David Guy, Northern California Water Association; Dr. Donald Kendall, Calleguas Municipal Water District; Bob McLandress, California Waterfowl Association; Barry Nelson, Natural Resources Defense Council; Glenn Olson, National Audubon Society; Mark Petrie, Ducks Unlimited; and Nicole Rothfleisch, Imperial Valley Farm Bureau.
